

**NEW:** *Transitions® XTRActive® lenses are now available in brown.*

## Transitions® XTRActive® ADAPTIVE LENSES

Transitions® XTRActive® lenses adapt to changing light conditions, offering **superior darkness** compared to other everyday photochromic lenses, even in hot temperatures. They have a comfortable hint of tint indoors to shield the eyes from harsh artificial light, providing added protection against eyestrain and fatigue. Transitions XTRActive lenses activate moderately behind the windshield, and are 100% UVA and UVB light blocking. Recommended for any wearer who prefers a darker everyday lens. Available in Transitions XTRActive gray and **new Transitions XTRActive brown**.
